Boilerplate Changes from FY 2018-19 Year-to-Date:

1. **Foreign Exchange Students.** Senate struck language that will prohibit a district from counting a pupil in membership if the district also charges tuition for that student, and they resided out of state in the prior year. (Sec. 6(4)(mm))
2. **Reserving One-Half of Lapses.** Senate included language requiring that one-half of lapses remain the School Aid Stabilization Fund and not be spent at the beginning of the next fiscal year. (Sec. 11a)
3. **Hardship and Audits.** Governor reduced the timeframe by which overpayments can be repaid, from nine years to four years, and extended the period by three years for which the department may conduct audits. Senate concurred in the first change, but grandfathered in existing agreements, and did not concur in the second change. (Sec. 15)
4. **"Basic" to "Target".** Senate changed "basic foundation allowance" to "target foundation allowance". (Sec. 20)
5. **Partnership Districts.** Governor and Senate removed language requiring partnership districts to comply with Sec. 22p to get their discretionary payment. Governor also removed Section 22p (partnership district language). Senate retained the section but removed the reconstitution stipulation that 25% of faculty be removed. (Sections 22b and 22p)
6. **Pupil-Weighted Allocations.** Governor included a new section with language to implement a weighted per-pupil education funding model for a per-pupil base amount and weights for additional resources. The section includes funding, and estimated weights of 4% for special education, 11% (of the minimum foundation allowance) for at risk, and 6% for career and technical education (CTE). Senate did not include. (Sec. 28)
7. **At Risk.** Governor increased the funding to hold harmless districts for at risk payments, from 30% to 50% of the amount that a non-hold harmless district would receive. Senate did not concur. Governor and Senate added language requiring districts to use at risk funds to show progress toward meeting the goals of providing tutors, pupil support, summer school teachers, expanding professional development, and providing additional supports to complete the FAFSFA. Governor and Senate increased the amount of at risk funds that can be used for professional development from 5% to 10%. Governor and Senate removed the ability for a district to demonstrate proficiency by achieving at least one year's growth as measured by a local benchmark assessment (but retained the state benchmark to demonstrate proficiency). Senate retained the hold harmless provision, but with adjustments for changes in enrollment. (Sections 28 and 31a)
8. **Professional Development as Hours of Instruction Guidelines.** Governor restored language allowing districts to count up to 38 hours of qualifying professional development as hours of pupil instruction. (This was allowed until FY 2014-15.) Governor added language stating that qualifying professional development exceeding five hours in a single day may be counted as a day of pupil instruction, and eight hours of qualifying professional development counted as hours of pupil instruction must be recommended by a districtwide professional development advisory committee. Governor also changed the definition of "qualifying professional development" to be that which is aligned to the school district improvement plan, is linked to one or more criteria in a teacher evaluation tool, is approved by the department as continuing education credits, occurs after school starts and before school ends, and where at least 75% of teachers are in attendance. Senate concurred. (Sec. 101)
9. **Changes to Kindergarten Entry Observation.** Governor and Senate removed the existing pilot kindergarten entry observation tool and assessment and replaced it with a program for the department to implement, on a sample basis statewide, a Michigan kindergarten entry observation tool. Governor included a requirement for the department to implement a "train-the-trainer" professional development model on the usage of this observation tool. (Sec. 104)
10. **Michigan Merit Exam.** Governor removed language allowing the scores for the statewide assessment and the graduation rate for consortium pupils to be included with the scores for the school building in the participating district in which the consortium pupil is enrolled or would otherwise attend. Senate retained current law. (Sec. 104b)
11. **English Language Arts (ELA) and Math Tests for K-2.** Governor removed a requirement for the department to offer benchmark assessments to measure ELA and math in each of grades K-2. Senate did not concur. (Sec. 104c)
12. **Michigan Public School Employees' Retirement System (MPERS) Retirement Obligation Reform Reserve Fund.** Governor included a requirement to deposit \$40.0 million from the School Aid Fund into the MPERS reform reserve fund for 2019-20. Senate did not concur. (Sec. 147b)
13. **Section 166.** Senate repealed Section 166, which requires the implementation of penalties for violations of Section 1507 of the Revised School Code (sex education), and for persons who refer a pupil for an abortion. (Sec. 166)
