

**Summative Accountability Student Datafile**

Column Letter	Column Name	Column Use(s)	Description	Field Type (Length)
A	AcademicYearName	Report Grouping	User selected year for reporting. Moved from a heading into a column because that will make it easier for users to load multiple District/school files into local data warehouses	nvarchar(250)
B	ISDCode	Report Grouping	User selected ISD for reporting. Moved from a heading into a column because that will make it easier for users to load multiple District/school files into local data warehouses	char(5)
C	ISDName	Report Grouping	User selected ISD for reporting. Moved from a heading into a column because that will make it easier for users to load multiple District/school files into local data warehouses	nvarchar(255)
D	DistrictCode	Report Grouping	User selected District for reporting. Moved from a heading into a column because that will make it easier for users to load multiple District/school files into local data warehouses	char(5)
E	DistrictName	Report Grouping	User selected District for reporting. Moved from a heading into a column because that will make it easier for users to load multiple District/school files into local data warehouses	nvarchar(255)
F	BuildingCode	Report Grouping	User selected Building for reporting. Moved from a heading into a column because that will make it easier for users to load multiple District/school files into local data warehouses	char(5)
G	BuildingName	Report Grouping	User selected Building for reporting. Moved from a heading into a column because that will make it easier for users to load multiple District/school files into local data warehouses	nvarchar(255)
H	PrivateIndicator	Report Grouping	Flag if a student is a private school student. Y - Student enrolled in non-public entity. N - Student enrolled in a public entity.	Char(1)
I	LastName	Identify Student	Student last name.	varchar(50)
J	FirstName	Identify Student	Student first name.	varchar(50)
K	MiddleName	Identify Student	Student middle name.	varchar(50)
L	DateofBirth	Describe Student	Student date of birth.	date
M	UIC	Identify Student	Student Unique Identification Code (UIC) from the Michigan Student Data System (MSDS).	char(10)
N	GradeName	Describe Student	The grade student was enrolled and tested in.	nvarchar(50)
O	Gender	Describe Student	Student gender. M - Male F - Female	char(1)
P	EthnicityID	Describe Student	Code of student race/ethnicity.	int
Q	EthnicityName	Describe Student	Description of the student's race/ethnicity.	nvarchar(50)
R	EconomicallyDisadvantaged	Describe Student	Flag for Economically Disadvantaged. Y - ED N - Non-ED	char(1)
S	SpecialEducation	Describe Student	Flagged as Special Education student. Y - Special Education N - Non-Special Education	char(1)
T	EnglishLearner	Describe Student	Flag for Limited English Proficient (LEP) / English Language Learner (ELL) / English Learner (EL); Y - LEP/ELL/EL N - Non-LEP/ELL/EL	char(1)
U	Migrant	Describe Student	Flag for Migrant Student; Y - Migrant N - Non-Migrant	char(1)
V	FormerlyEnglishLearner	Describe Student	Flag for Formerly English Learner Student(has exited the English Learner Program) Y - Formerly English Learner N - Not Formerly English Learner	char(1)
W	Homeless	Describe Student	Flag for Homeless Student. Y - Homeless N - Not Homeless	char(1)
X	HomeSchool	Describe Student	Flag for Student that is homeschooled. Y - Homeschool student N - Not Home School Student	Char(1)
Y	OutofLevel	Describe Student	Flag indicating that tested and enrolled grades do not match. Y - Out of Level N - Not Out of Level	Char(1)
Z	StudentResidencyCode	Describe Student; Participation; Proficiency	Code of student's residency type.	nvarchar(10)
AA	IncludeEnrollment	Describe Student Enrollment for Participation	Indicates whether student is included in the building enrollment calculation. Y - True (include) N - False (do not include)	char(1)
AB	DistrictEnrolledFAY	District FAY	Flag for district Full Academic Year (FAY) status. Y - District FAY N - Not district FAY	char(1)
AC	BuildingEnrolledFAY	Building FAY	Flag for building Full Academic Year (FAY) status. Y - Building FAY N - Not building FAY	char(1)
AD	ELAIncludeinFAYParticipationCalculationForProficiency	Proficiency	Flag to indicate whether the record is used in the denominator of the FAY participation rate proficiency multiplier for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y- Count as participating N - Not counted as participating	char(1)
AF	ELACountAsFAYParticipatedForProficiency	Proficiency	Flag to indicate whether the record is used in the numerator of the FAY participation rate proficiency multiplier for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y- Count as participating N - Not counted as participating	char(1)
AG	ELAIncludeinFAYParticipationCalculationForGrowth	Growth	Flag to indicate whether the record is used in the denominator of the FAY participation rate growth multiplier for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y- Count as participating N - Not counted as participating	char(1)

AH	ELACountAsFAYParticipatedForGrowth	Growth	Flag to indicate whether the record is used in the numerator of the FAY participation rate growth multiplier for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y - Count as participating N - Not counted as participating	char(1)
AI	ELAIncludeinParticipationCalculation	Participation	Flag to indicate whether the record is used in the denominator of the participation rate for the reporting district/school. This blends together all the factors of student residency, resident LEA, and not tested reasons. Y - Included N - Not included	char(1)
AJ	ELACountasParticipated	Participation	Flag to indicate whether the record is used in the numerator of the participation rate for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y - Count as participating N - Not counted as participating	char(1)
AK	ELAIncludeinProficiencyCalculation	Proficiency	Flag to indicate whether the record is used in the denominator of the accountability proficiency rate for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y - Included N - Not included	char(1)
AL	ELACountasAccountableProficient	Proficiency	Flag to indicate whether the record is used in the numerator of the accountability proficiency rate for the reporting district/school. This blends together all the factors of student residency, not tested reasons, and valid flag. Y - Count as accountable proficient N - Not counted as accountable proficient	char(1)
AM	ELAAcceptedNotTestedAppeal	Participation	Flag indicating whether the student has an accepted Not Tested Appeal. Students with accepted Not Tested Appeals are excluded from both the numerator and denominator of both participation and proficiency. The one exception to the previous statement is for students with a Not Tested Reason of "ESE ELL Student Exempt." These students have been in the US for 12 months or less, have taken the states assessment of English language proficiency (this was WIDA in 2015-16), and are counted as tested (i.e., included in both the numerator and denominator of the participation calculation). Y - Has an Accepted Not Tested Appeal N - Does not have an accepted Not Tested Appeal	char(1)
AN	ELANotTestedReason	Participation	The reason given for why the student was not tested. (Blank) - student was tested or no reason was given why the student was not tested AB Absent / Suspended / Expelled w/Services ADMN Administrative Error ESE ELL Student Exempt EX Expelled without Services LEUT Late Enrollment - Unable to Test MEEM Medical Emergency MIST MI-Access Student NTS New to State PR Parent Refused/Student Refused Previously Tested	varchar(5)
AO	ELAValid	Participation; Proficiency	Flag indicating whether the ELA assessment is valid and can be used in accountability Y - valid N OR NA - invalid	varchar(2)
AP	ELANonStandard	Participation	Flag for students receiving non standard accommodations. All non standard records are invalid and are not used for participation nor proficiency. However, the test is scored and information provided. Y - has Non-standard flag N OR NA- does not non-standard flag	varchar(2)
AQ	ELAAssessment	k	Indicates assessment type taken. SAT - SAT MSTEP - MSTEP FI - MI-Access Functional Independence SI - MI-Access Supported Independence P - MI-Access Participation SAT - SAT (S - Student with a Not Tested Reason for this assessment)	varchar(6)
AR	ELAPL	Proficiency	Indicates the student performance level. NA - Not Available SAT: 4 - Proficient 1 - Not Proficient M-STEP: 4 - Advanced Proficient 3 - Proficient 2 - Partially Proficient 1 - Not Proficient MI-Access: 3 - Surpassed 2 - Attained	varchar(3)
AS	ELASS	Proficiency	Scale Score (SS) achieved on the ELA assessment	varchar(5)
AT	ELAStdError	Proficiency	Standard error of the ELA scale score	varchar(12)
AU	ELAZScore	Achievement	z-score of the student's ELA scale score	varchar(12)
AV	ELA SGP	Improvement	The Student Growth Percentile (SGP) for the student. These values range from 1 to 99.	varchar(4)
AW	ELAAGP	Improvement	The Adequate Growth Percentile (SGP) For the student. These values range from 1 to 99.	varchar(4)

AX	ELAProficient	Proficiency	Text description of the student's proficiency category: Y - students scoring at or above the proficient cut score N OR NA = non-proficient, not-tested, or invalid	varchar(2)
AY	ELAMetAdequateGrowth	Improvement	Indicates whether or not student met adequate growth. Y - Yes N or NA - NO	varchar(2)
AZ	ELACountAsAccountableGrowthMet	Growth	Flag to indicate whether the record is used in the numerator of the FAY growth rate for the reporting district/school. Y - Count as met growth N - Not counted as met growth	char(1)
BA	MathIncludeinFAYParticipationCalculationForProficiency	Proficiency	Flag to indicate whether the record is used in the denominator of the FAY participation rate proficiency multiplier for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y - Count as participating N - Not counted as participating	char(1)
BB	MathCountAsFAYParticipatedForProficiency	Proficiency	Flag to indicate whether the record is used in the numerator of the FAY participation rate proficiency multiplier for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y - Count as participating N - Not counted as participating	char(1)
BC	MathIncludeinFAYParticipationCalculationForGrowth	Growth	Flag to indicate whether the record is used in the denominator of the FAY participation rate growth multiplier for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y - Count as participating N - Not counted as participating	char(1)
BD	MathCountAsFAYParticipatedForGrowth	Growth	Flag to indicate whether the record is used in the numerator of the FAY participation rate growth multiplier for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y - Count as participating N - Not counted as participating	char(1)
BE	MathIncludeInParticipationCalculation	Participation	Flag to indicate whether the record is used in the denominator of the participation rate for the reporting district/school. This blends together all the factors of student residency, resident LEA, and not tested reasons. Y - Included N - Not included	char(1)
BF	MathCountasParticipated	Participation	Flag to indicate whether the record is used in the denominator of the participation rate for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y - Count as participating N - Not counted as participating	char(1)
BG	MathIncludeInProficiencyCalculation	Proficiency	Flag to indicate whether the record is used in the denominator of the accountability proficiency rate for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y - Included N - Not included	char(1)
BH	MathCountasAccountableProficient	Proficiency	Flag to indicate whether the record is used in the denominator of the accountability proficiency rate for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y - Count as accountable proficient N - Not counted as accountable proficient	char(1)
BI	MathAcceptedNotTestedAppeal	Participation	Flag indicating whether the student has an accepted Not Tested Appeal. Students with accepted Not Tested Appeals are excluded from both the numerator and denominator of both participation and proficiency. Y - has an Accepted Not Tested Appeal N - does not have an accepted Not Tested Appeal	char(1)
BJ	MathNotTestedReason	Participation	The reason given for why the student was not tested. (Blank) - student was tested or no reason was given why the student was not tested AB Absent / Suspended / Expelled w/Services ADMN Administrative Error ESE ELL Student Exempt EX Expelled without Services LEUT Late Enrollment - Unable to Test MEEM Medical Emergency MIST MI-Access Student NTS New to State PR Parent Refused/Student Refused Previously Tested	varchar(5)
BK	Math Valid	Participation; Proficiency	Flag indicating whether the Math assessment is valid and can be used in accountability Y - valid N or NA - invalid	varchar(2)
BL	MathNonStandard	Participation	Flag for students receiving non standard accommodations. All non standard records are invalid and are not used for participation nor proficiency. However, the test is scored and information provided. Y - has Non-standard flag N or NA - does not non-standard flag	varchar(2)
BM	MathAssessment	Participation; Proficiency	Indicates assessment type taken. MSTEP - MSTEP FI - MI-Access Functional Independence SI - MI-Access Supported Independence P - MI-Access Participation SAT - SAT (Blank) - Student was not tested or has an approved Not Tested Reason for this content area	varchar(6)

BN	MathPL	Proficiency	Indicates the student performance level. SAT: 4 - Proficient 1 - Not Proficient M-STEP: 4 - Advanced Proficient 3 - Proficient 2 - Partially Proficient 1 - Not Proficient MI-Access: 3 - Surpassed 2 - Attained	varchar(3)
BO	MathSS	Proficiency	Scale Score (SS) achieved on the Math assessment	varchar(5)
BP	MathStdError	Proficiency	Standard error of the Math scale score	varchar(12)
BQ	MathZScore	Achievement	Z-Score of the student's Math scale score	varchar(12)
BR	MathSGP	Improvement	The Student Growth Percentile (SGP) for the student. These values range from 1 to 99.	varchar(4)
BS	MathAGP	Improvement	The Adequate Growth Percentile (SGP) For the student. These values range from 1 to 99.	Varchar(4)
BT	MathProficient	Proficiency	Text description of the student's proficiency category: Y - Students scoring at or above the proficient cut score N or NA - Not proficient, not tested, or invalid	varchar(2)
BU	MathMetAdequateGrowth	Improvement	Indicates whether or not student met adequate growth. Y - Yes N or NA - No	varchar(2)
BV	MathCountAsAccountableGrowthMet	Growth	Flag to indicate whether the record is used in the numerator of the FAY growth rate for the reporting district/school. Y - Count as met growth N - Not counted as met growth	char(1)
BW	ScienceIncludeinParticipationCalculation	Participation	Flag to indicate whether the record is used in the denominator of the participation rate for the reporting district/school. This blends together all the factors of student residency, resident LEA, and not tested reasons. Y - Included N - Not included	char(1)
BX	ScienceCountasParticipated	Participation	Flag to indicate whether the record is used in the numerator of the participation rate for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y - Count as participating N - Not counted as participating	char(1)
BY	ScienceIncludeinProficiencyCalculation	Proficiency	Flag to indicate whether the record is used in the denominator of the accountability proficiency rate for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y - Included N - Not included	char(1)
BZ	ScienceCountasAccountableProficient	Proficiency	Flag to indicate whether the record is used in the numerator of the accountability proficiency rate for the reporting district/school. This blends together all the factors of student residency, resident LEA, not tested reasons, and valid flag. Y - Count as accountable proficient N - Not counted as accountable proficient	char(1)
CA	ScienceAcceptedNotTestedAppeal	Participation	Flag indicating whether the student has an accepted Not Tested Appeal. Students with accepted Not Tested Appeals are excluded from both the numerator and denominator of both participation and proficiency. Y - Has an Accepted Not Tested Appeal N - Does not have an accepted Not Tested Appeal	char(1)
CB	ScienceNotTestedReason	Participation	The reason given for why the student was not tested. (Blank) - student was tested or no reason was given why the student was not tested AB Absent / Suspended / Expelled w/Services ADMN Administrative Error EX Expelled without Services LEUT Late Enrollment - Unable to Test MEEM Medical Emergency MIST MI-Access Student NTS New to State PR Parent Refused/Student Refused Previously Tested	varchar(5)
CC	ScienceValid	Participation; Proficiency	Flag indicating whether the Science assessment is valid and can be used in accountability Y - Valid N OR NA - Invalid	varchar(2)
CD	ScienceNonStandard	Participation	Flag for students receiving non-standard accommodations. All non-standard records are invalid and are not used for participation nor proficiency. Y - Has Non-standard flag N or NA - Does not non-standard flag	varchar(2)
